## SUSPICIOUS IDs:

There may be situations where the ID submitted is deemed questionable such as:

- Different font/format than the usual.
- Customer with the same photo for multiple IDs submitted (e.g. UMID photo ID is the same as the photo in the laminated TIN ID).
- Different color of the ID.
- The reference/ID number is outside the typical format for the ID submitted (e.g. TIN ID number typically only has 9 to 12 characters while UMID and Driver's License have fixed format for their reference/ID numbers).
