

Choosing the Pru Life UK product solution that suits you

Pru Life UK offers a wide selection of products. It is important to carefully choose a product that matches your financial objectives, needs, and capacity to take risks. Make sure that you have successfully accomplished the Suitability Assessment Form to find out the recommended product that suits your needs.

	Traditional Insurance	Investment-Linked Insurance
	It provides financial protection. Some offer pure coverage, while others build cash value that can be loaned if needed.	It provides financial protection that also includes an investment component. It helps grow funds, but its returns depend on market performance and are not guaranteed.
